HYDRATION ISN'T A FIX, IT'S THE FOUNDATION

Humantra's 60% water, 40% electrolyte powder is a simple habit that can make a difference to your overall health.

Humans are 60% water. So it's really no surprise that so many aspects of our general health and wellbeing are linked to proper hydration. Yet too many of us struggle to hydrate our bodies sufficiently.

The truth is, hydration should be prioritised every day. It impacts everything – from cognition, to increased energy, to glowing skin and stronger hair.
